In einen flachen Teller eine Lauge aus Wasser und 2 Tropfen Spülmittel ansetzen. Schutzpapier entfernen und das Deco mit einem Pinsel auf der Klebeseite mit Lauge benetzen. Entsprechende Teile ebenfalls mit der Lauge benetzen. Mit einer Gummiwalze oder einem weichen Tuch das Wasser unter der Folie ausstreichen. Gut trocknen lassen.

On a flat plate prepare a solution consisting of water and two drops of a dish washing liquid. Remove the liner and wet the adhesive side of the decoration sheet with that solution using a paintbrush. Also wet the corresponding parts with the solution. Squeeze the water out from beneath the sheet using a rubber cylinder or a soft cloth. Allow to dry thoroughly.

Sur une assiette plate, préparer une solution composée d'eau et de 2 gouttes d'un produit pour la vaisselle. Détacher le papier protecteur et mouiller de cette solution le côté gommé de la feuille de décoration, à l'aide d'un pinceau. Mouiller également de cette solution les pièces correspondantes. En pressant à l'aide d'un rouleau en caoutchouc ou d'un chiffon doux, éliminer l'eau se trouvant sous la feuille. Bien laisser sécher.

Maak in een plat schaaltje een sopje van water en 2 druppels afwasmiddel. Verwijder het bescherm papier en bevochtig de plakzijde van het decoratie-element met behulp van een penseel met het sopje. Bevochtig de overeenkomende delen eveneens met het sopje. Strijk met een rubberwals of een zachte doek het water onder de folie vandaan. Laat het geheel goed drogen.
